HAS SPENT FORCE

Relayed Telegrams Tell of Five
Lives Lost in Southwestern
Louisiana.

TRAINING CAMP WRECKED

Army Officials Take Stock of
Damage Done by Eighty-Mile-
an-Hour Twister.

WAVES OF HEAT AGAIN
SEND MERCURY SOARING

Washington, Aug. 7.—Waves of heat from a new low pressure area developing over the great lakes and spreading eastward sent the mercury soaring again today throughout the middle west, east and south, and the weather bureau held no hope for relief from the record hot weather for at least two days.

The "low" which began the trouble passed over the Gulf of St. Lawrence into the Atlantic yesterday, but it was quickly followed by another taking about the same track. With this development came the news that the tropical hurricane which swept lower Louisiana from the Gulf of Mexico had died in its tracks, dissipating hopes of relief from that quarter.

Only abnormally low humidity is saving the country in the path of the heat waves from terrible suffering. Early today several eastern cities reported temperatures higher than at the same time yesterday.

Washington, Aug. 7.—The tropical storm which struck the Gulf coast in southwestern Louisiana yesterday afternoon apparently had spent its force today. Weather bureau reports said it had greatly diminished in intensity and no longer was a storm of importance.

Followed Narrow Path.

Houston, Tex., Aug. 7.—Three lives were lost in Tuesday's windstorm at Dequincy, La., and three negroes were killed at Hammons Camp, two miles east of Dequincy, a relayed telegram to the Gulf Coast lines reports.

At Dequincy the storm broke at 4 o'clock. A restaurant man named Nelson and his son are among the killed. The restaurant was destroyed, and the stores and churches were wrecked. Wives are down east of the Texas border and the Gulf Coast track is littered with trees. The storm followed a narrow path, but was very severe. Dequincy is twenty-five miles north-east of Lake Charles, where great damage was done.

Cool Wave for Chicago.

Chicago, Aug. 7.—"Cooler today and cloudy" was the weather forecast made by the weather itself when Chicago was freed from its second hot, insufferable night. Shortly after midnight a breeze from the lake disturbed the heat-laden air, which had absorbed much from the day's temperature, which ranged as high as 101 degrees. The heat toll of the day was five deaths and numerous prostrations.

Take Stock of Damage.

Lake Charles, La., Aug. 7.—Army officials at Gerstner Field training camp for aviators, at Lake Charles, are today taking stock of damage done to the camp by an eighty-mile-an-hour twister which swept over portions of Louisiana and Texas last night. Estimates put the damage in this vicinity at \$1,000,000. Sulphur, La., is also reported to have suffered considerable loss, and unverified rumors of loss of life have been made.

Twelve Dead in New York

New York, Aug. 7.—With twelve deaths officially recorded and scores of prostrations, New York and vicinity continued to suffer from the torrid wave. Thousands of persons sought relief during the night at the beaches and hundreds slept out of doors.

MANY OPENINGS IN
QUARTERMASTER CORPS

Material Expansion Expected
at Lyle—Draft Men May
Enlist.

It is expected that expansion on a large scale will begin soon in the quartermaster's department at Lyle. Although no definite figures are now available, it was stated this morning by officers in the quartermaster's department that plans are at present under consideration at Washington, and will be given in the near future. Extensive changes in the reclamation and utilities division are contemplated, and a post laundry, which will take care of all the soldier's washing, is to be built. Along with expansion in other branches, an increase in the administrative unit will be necessary, and this part of the quartermaster's corps is pointed out as being an excellent place for men of this city to do their bit. Advancement for intelligent clerical workers is said to be rapid, and a large number are sent from Lyle to officers' training camps every month. About forty Chattanooga men enlisted in this branch of the service last month, but there is still room for many more. Enlistment in the quartermaster's corps is open to all men from 18 to 40 except those in class 1A.

Porter Anderson With
Fighting Force at Front

It is understood that Jo Porter Anderson, son of Jo Anderson, the druggist, is in the battle that is going on now at the French front. He is with the Sevance ambulance corps and went over last August. His parents have a letter from him dated July 26.

AMERICA'S BLACK DEVILS

A detachment of American negroes in the trenches in France.

GREAT HAVOC WROUGHT IN
LAKE CHARLES VICINITY

Over Hundred Buildings De-
molished—Hardly One Es-
caped Damage—Ten Killed.

Lafayette, La., Aug. 7.—The tropical storm which hit the Louisiana coast yesterday afternoon wrought great havoc in Lake Charles and vicinity, according to stories told by persons arriving here from that place early today by boat and automobile. Ten persons are reported to have been killed and property damage of more than a million dollars is believed to have been done. Hardly a building in Lake Charles escaped damage, more than a hundred being entirely demolished. Electric light, telephone and telegraph wires were down and the city was in total darkness last night.

Mayor Trotter, of Lake Charles, called a mass meeting of citizens Tuesday afternoon to devise means for protecting the city during the night. Lieut. Frazier, of Gerstner field, was placed in charge of the volunteer police to cooperate with the regular city police, and a large detail of soldiers from Gerstner field was on duty. The city was divided into districts and military law was proclaimed.

The storm lasted about two hours. Striking the city at 2 o'clock it blew with full force until 4 p.m., at times reaching a velocity estimated at 120 miles an hour. Ryan street, the principal business thoroughfare of the city, was the scene of great damage.

Many fires broke out during the storm. The building of the Lambert Chemical company was destroyed with a loss of about \$25,000. The plant of the Hodge Fence company was also burned, entailing a heavy loss. The Lockmore Lumber company plant, near Lake Charles, was reported on fire at midnight, and it was expected it would be a total loss.

The large plant of the Cluney Shipbuilding company on the outskirts of Lake Charles, was burning early today. This plant is valued at several hundred thousand dollars.

Passengers and Crew Safe.

The steamship Rex with forty-two passengers aboard, while on its way to Lake Charles was caught by the storm and wrecked in Brean lake. The passengers and crew were rescued and taken to Lake Charles.

Three persons were killed at Sulphur, La., and about fifty houses demolished.

Westlake, La., across the lake from Lake Charles, suffered severe property damage.

White Guards and Allied
Pursuit of Bolsheviks

(Associated Press.)

Kandalaska, Monday, Aug. 5.—Volunteer detachments of white guards are giving aid to the allied units pursuing the bolshevik forces retreating southward from Archangel.

The new Archangel government has arrested most of the bolshevik leaders who had not fled. The bolshevik commissioner of war, Zerkovich, was killed. Otherwise the change in government was virtually bloodless. Before the allied troops landed at Archangel, the local bolshevik issued a proclamation to the troops urging violence toward allied troops.

THREE MEN KILLED BY
EXPLOSION OF DYNAMITE

Accident Wrecks Buildings at
Grafton Ill.—Names of
Dead.

Grafton, Ill., Aug. 7.—Three men were killed here today in an explosion which partly wrecked the Grafton dynamite plant.

The dead are: Joseph Campbell and Herman Thomas, both of Grafton, and a man from Elmhurst, Ill., whose name could not be learned.

Physicians and nurses were sent from Alton, but details of the explosion could not be learned.

GEN. MANGIN'S
PATROLS ACTIVE

Army Operating on West of
Vesle Throws Out Recon-
noitering Units.

SOME DELAY POSSIBLE

Gen. Berthelot's Troops Effect
Heavy Captures of Material
South of Rheims.

London, Aug. 7.—(Via Montreal)—Gen. Mangin's army operating on the western side of the Vesle front has thrown out patrols which are busying themselves reconnoitering the Alsace. Reuter's correspondent at American headquarters reports.

The intentions of the Germans regarding the ridge between the Vesle and the Aisne can only be conjectured, he continues. This position is strongly protected on the eastern flank, and is carried only from the west the allies would be under an uncomfortable fire from the German guns across the Aisne.

A certain amount of delay is therefore possible, the correspondent adds, even though the enemy does not intend to make his final stand on the Vesle front.

With the American Army in France, Aug. 7.—The army of Gen. Berthelot, whose operations had a marked effect in bringing about the retreat of the crown prince across the Vesle by breaking down the eastern pivot of his line southwest of Rheims, effected heavy captures of material during the fighting.

In one volley alone 300,000 shells of heavy calibre were taken in addition to immense quantities of other material. This army also captured several batteries of heavy and field guns, and a number of machine guns, in addition to 373 machine guns, hundreds of light trench mortars. The army's bag of prisoners exceeded 2,000.

ALL HUN SNIPERS NOT
YET DRIVEN FROM FISMES

Yankee Mounted Patrols Cross
River While Artillery Shells
Enemy Post Intensely.

London, Aug. 7.—How American patrols crossed the Vesle after the occupation of Fismes is told in a dispatch from a correspondent of the Daily Mail on the American front, dated Monday:

"The Germans have fortified a number of positions north of the Vesle and close to Fismes," he says. "Two of their divisions are in the line here and one of them is believed to be a strong one from the reserves of Crown Prince Rupprecht of Bavaria."

"Early yesterday morning parties waded the Vesle west of Fismes, where it flows at a good pace. They were under machine gun fire from the lower slopes along the river and artillery fire from heights more to the rear. From the north side the Americans pushed on while their artillery shelled the German positions intensely. East of Fismes American mounted patrols crossed the river today."

"At the taking of Fismes yesterday the Germans fought desperately in the streets for some time, but finally broke and ran. American machine guns were punishing them severely as they fled down the slopes to the Vesle."

"German snipers and machine gunners are still in houses in Fismes, although the Americans have been there for twenty-four hours."

"Increasing resistance is expected as we approach the enemy's main line of defense. Meanwhile the Americans are dealing with the enemy machine gunners left behind in the fields of waving corn."

BRITISH TROOPS LAND
AT VLADIVOSTOCK.

Shanghai, Saturday, Aug. 2.—British troops landed at Vladivostock at dawn today, says a dispatch from that city. They received a friendly reception.

FRENCH REPULSE
SERIES ATTACKS

German Attacks Between
Braisne and Soissons and
Auberive in Champagne.

STATION OCCUPIED

Paris Troops Take Ciry-Sal-
sogne in Bend of Vesle
Toward Aisne.

Paris, Aug. 7.—Along the Vesle the French continue to repulse German attacks, especially between Braisne and Soissons. The war office announces that 100 prisoners have been captured east of Braisne.

The Germans today made a local attack against the French position south of Auberive in Champagne. They were repulsed. In the course of the fighting near the Vesle the French occupied the station of Ciry-Salsogne, just to the west of the bend in the Vesle where it turns northward to join the Aisne.

French troops last night in the Montdidier area gained ground south of Framicourt and southeast of Montdidier.

The statement reads:

"In the region of Montdidier our troops have made some local progress south of Framicourt and southeast of Mesnil-St. Georges (west of Montdidier)."

"Along the Vesle the French last night repulsed German attempts against LaGrange farm (west of Braisne) and occupied the station at Ciry-Salsogne. We made 100 prisoners east of Braisne."

"In Champagne a local attack was directed this morning against our position south of Auberive. It was thrown back."

U-BOAT CREWS REVOLT IN
PROTEST OF FURTHER WAR

Sailors Incited to Attack Of-
ficers and Get Themselves In-
terned at Neutral Ports.

London, Aug. 7.—Rumors of a revolt by German sailors at Wilhelmshaven in protest against continuation of the submarine war are in circulation, according to a dispatch to the Express from Amsterdam. It is reported that propagandists among the men incited sailors about to leave on submarine cruises to attack their officers and surrender their ships or seek an opportunity to sink them and get themselves interned in neutral harbors. More than fifty submarines are said to have disappeared.

Twenty-three of the ringleaders of the revolt are said to have been arrested and sentenced to death. Many others have been arrested at Kiel and elsewhere, it is added.

The correspondent who sends the reports admits that the stories are conflicting and the facts difficult to ascertain.

The men behind the movement, the accounts state, are revolutionary sailors who for some time past have been conducting propaganda with the object of stopping the submarine war because of the increased dangers.

The recent resignation of Admiral Von Holtzendorff as chief of the naval staff is declared to have been connected with the scandal, Emperor William, it is added, has abandoned an intended visit to the fleet at Wilhelmshaven this week because of the ferment there.

PROPOSE TO CONSOLIDATE
TELEPHONE COMPANIES

Washington, Aug. 7.—Postmaster-General Burleson announced today that one of the first effects of government control of telephones and telegraphs probably would be the coordination and consolidation of competing systems wherever possible.

TODAY'S CASUALTIES

Other names in the army and marine casualty lists will be found in the late edition of The News.

Still Hot, Says Billy 'Possum

Some times there are when I would faint forget that things must go by rule, and militant my spirit tries to get, but what's the use to sit around and fret, I simply can't stay 'cool."

The weather? Fair and continued high temperature tonight and Friday.

GROUND LOST TO HUNS IN
MORLANCOURT REGAINED

Advance Made Astride Clarence River and Along
Bray-Corbie Road, North of Somme—Three
German Battalions in Attack Pushed
Forward to Depth of 500 Yards.

London, Aug. 7.—A double advance by the British was reported by the war office.

All of the ground that had been lost to the Germans in the Morlancourt sector was regained while the British advanced astride the Clarence river.

The successful attacks in the Morlancourt region were carried out early this morning.

Prisoners Taken.

London, Aug. 7.—In an attack carried out this morning southwest of Morlancourt the British regained the ground taken from them by the Germans yesterday along the Bray-Corbie road north of the Somme.

The British line astride the Clarence river on the Flanders front has been advanced a short distance, says today's war office announcement. A few prisoners were taken during the course of the operation.

Counter-Attacked.

"At an early hour this morning the British troops holding the sector on our front southwest of Morlancourt counter-attacked and regained all of the most important positions of the ground taken from them by the enemy in his attack yesterday. All the objectives of our counter-attack have been secured and a number of prisoners captured by us."

"As the result of the action of our patrols yesterday and during the night we advanced our line a short distance astride the Clarence river in the Lys sector and captured a few prisoners and two machine guns. A party of our troops successfully rushed one of the enemy posts last night north of the Vieux Berquin (on the north side of the Lys sector)."

"The hostile artillery has been ac-

TWO MEN FACE DEATH
ALL NIGHT IN SCOW

Stranded on Niagara River.
Rescued Close to Edge of
Cataract.

Buffalo, Aug. 7.—George Harris and Gus Laspere, in a state of collapse, nearly drowned and faint from lack of food, were rescued from a stranded scow in Niagara river close to the edge of the cataract this forenoon after all night facing death. Life lines attached to torpedoes which were shot across the scow, enabled a breeches buoy to be sent down from the Canadian side. The line snared under the strain and both men had narrow escapes from drowning in the trip to shore.

The cause of the accident was the breaking of a tow line between the scow and tug in drifting operations at the channel of the hydraulic company's canal not far from the New York state reservation yesterday afternoon. The tow line snapped when the scow struck bottom.

Rescue crews, soldiers and the fire departments of Niagara Falls, Ontario, and Niagara Falls, N. Y., worked all night trying to rescue the men.

AMERICAN ENGINEERS
UNDER HARASSING FIRE

Attempts to Throw Bridges
Across Vesle Meets De-
termined Objection.

(Associated Press.)

With the American Army on the Vesle, Tuesday, Aug. 6.—The Germans appear to be determined not to permit American engineers to throw bridges across the Vesle, and as a result several American officers have had thrilling experiences. Bridge builders had been eager to proceed with their work despite the German fire and their officers have had to hold them back.

Lieut. E. F. Mail, of California, on Tuesday, was under cover with sixty men on the south bank awaiting a lull in the German shelling in order to build a bridge. It was intended to build a footbridge on the foundations of a bridge destroyed by the Germans and then to put up a larger structure. Rather than expose his men Lieut. Mail, carrying two planks, started out on an exploration trip by himself.

Cheered By His Men.

The lieutenant reached the southern pier just as the German machine gunners commenced a heavy fire. This did not stop him. He tossed one plank into a temporary position and then put the other in place from the south pier to the pier in the middle of the river. The enemy fire became warmer. Lieut. Mail jumped into the river and took cover on the north bank. Afterwards he recrossed to the south bank and rejoined his command amid cheers from the soldiers. At another point farther west of Fismes, Maj. Francis R. Newcomer and Capt. James P. Gowden, during daylight, felled a tree across the Vesle and crossed to the north bank. They then chopped down another tree which fell toward the southern bank. Soon afterwards they had completed a footbridge with the tree trunks as stringers. Newcomer and Gowden had gone ahead of the bridge building gang to the position and when the gang arrived they found the work well started. The enemy discovered the footbridge soon afterward and since has subjected it to a lively fire.

BABY WITH RABIES
BITES ITS MOTHER

Atlanta, Aug. 7.—Mrs. Lewis M. Powell, of Savannah, is in Atlanta to take the Pasteur treatment. While nursing her 4-months-old baby, who fell toward the southern bank. Soon afterwards they had completed a footbridge with the tree trunks as stringers. Newcomer and Gowden had gone ahead of the bridge building gang to the position and when the gang arrived they found the work well started. The enemy discovered the footbridge soon afterward and since has subjected it to a lively fire.

Upon arriving at Camp Taylor the applicant is further examined by the physicians there and is subject to their decision as to whether he be allowed entrance to the training camp.

LONG RANGE SHELLING OF
PARIS SECTOR RESUMED

Paris, Aug. 7.—The long range shelling of the region of Paris was resumed today.

ENEMY PREYS OFF
CAPE HATTERAS

Submarine Comes in Half-Mile
of Famous Diamond Shoals
Station.

JAP FREIGHTER SUNK

Near Nova Scotia Coast—Six-
ty-Five of Crew Rescued by
American Schooner.

Washington, Aug. 7.—The Diamond shoals lightship, off Cape Hatteras, N. C., was shelled and sunk by an enemy submarine late yesterday, the navy department today was informed. The crew, who took to their boats, have reached shore safely.

The submarine came within a half mile of shore, according to the brief report which reached the navy department.

The Diamond shoals light station is one of the most famous guides to navigation in the world and has been the subject of many a story in verse and prose. Such vessels usually are manned by gray beards, and are of such a type as to be utterly helpless in the face of an enemy attack. The attacking submarine probably was the one that sank the American tank steamer O. B. Jennings 100 miles off the Virginia coast several days ago. Her exploit in showing herself above water within half a mile of the Carolina coast, in an important shipping lane where innumerable patrol boats are supposed to be playing a game of hide-and-seek, is one of the most daring recorded since the German raiders first made their appearance on this side of the Atlantic.

Land's Japanese Crew.

A Canadian Atlantic Port, Aug. 7.—An American schooner arrived here today with sixty-five members of the crew of a Japanese freight steamer which had been torpedoed off the Nova Scotia coast.

Information Meagre.

The navy had received only meagre information when the statement was issued. The Diamond shoals ship guards the outthrust reefs of storm-swept Cape Hatteras, known as the graveyard of the Atlantic coast. It is imperative that the light be restored at once and steps to that end already have been taken by the commander of the naval district. If necessary, a special patrol of anti-submarine craft may be established to prevent a recurrence of the incident.

The attack upon the lightship may represent a new phase of enemy submarine operations off the American coast, designed to hamper shipping by destruction of important navigation signals. On the other hand, it may merely represent an isolated case of frightfulness. If the raider has definitely set out to destroy lightships, exposed lighthouses and the like, it is believed he cannot do very extensive harm before his ammunition supply is exhausted.

Make Raids too Perilous.

Some officers doubt that any general campaign against navigation signals is planned. To do it, it was said, would make navigation on the coast line by the submarine too perilous as they are wholly dependent on such aids to navigation to determine their own positions.

The vessel destroyed was lightship No. 71. Her crew of twelve men, all of whom landed safely.

LAWYERS ENTERTAIN
RETIRING JUDGES

Chief Justice Neil and Associa-
Justice Williams Honor
Guests of Occasion.

(Special to The News.)

Nashville, Aug. 7.—The Nashville bar association were hosts last night at a dinner given in honor of Chief Justice Neil, Mr. Neil and Justice S. C. Williams, retiring members of the supreme court of Tennessee. The dinner was held at the hotel Tulane and was attended by a majority of the members of the bar association.

In addition to the honor guests the following sat at the speakers' table: Judge S. F. Wilson, Justice Grafton Greene, Gov. Tom C. Rye, Judge E. T. Sney, Chancellor John Allison and Jordan Stokes. John Bell Keeble presided as toastmaster.

The following speakers responded to toasts: Judge S. F. Wilson, "The President of the United States"; Chancellor John Allison, "The State of Tennessee"; Justice S. C. Williams, "Our Relations, the Lawyers"; Chief Justice M. M. Neil, "Reminiscences"; Judge E. T. Sney, "Our Esteemed Friend the Honorable Grafton Greene"; Jordan Stokes, "The Allies First and Always."

Well-Known Local Boys
Cast Lot With Marines

Two more well-known young men of this city have decided to cast their lot with the "devil dogs" in order to get a shot at the Hun. Ralph E. McGill and Fred R. Westcott have enlisted in the marines, and leave today for Paris Island. Both are graduates of McCallie school and are well known in the city. McGill attended Vanderbilt university this year, and besides being president of the freshman class was a regular on the football team, playing guard. He received mention for the all-southern team from four newspapers in the south. He is a member of the Sigma Chi fraternity and the Pen and Pencil club at Vanderbilt. Westcott attended the University of Virginia this year and was prominent in dramatic and literary work there. Both young men had chances to obtain commissions at the end of their college courses, through the college R. O. T. C. system, but preferred to take the opportunity of joining the marines. Westcott especially is well known in the city. McGill attended Vanderbilt university this year, and besides being president of the freshman class was a regular on the football team, playing guard.
